Lebanon 6th March - 55

Rev. & dear sir,

Would it be any satisfaction to you to have your grandfathers — and *his* fathers family record?- John A. R. enquired of me for his granfathers -- supposing it was in the family bible & sold with his aunts books - - I made enquiry and found the bible but not the record - . . I have since found it among some old papers of hers — and wrote to John A. some short time since to inform - if he had any objections to my sending them to you sir, - - and receiving no answer - conclude he has none . . . . believe I have seen your grand father's will - also, among old papers . . . . -

Judge Hebard told me you had written him lately and he would read - or let me see the letter - but has not as yet - full of business with his farm which he has *greatly* improved - and much other business which I fear occupies too much of his time . . a very active man & - - - - - - - - - - -

I have indulged the hope that I might see you, sir, once more in the flesh - - but the prospect grows more & more uncertain - feel more & more the effects of age - and limited means - - - - - - -

Wishing you sir, the best of heavens blessings -

Am with due regard

Yours respectfully

E. S. Robinson

P. S. Please remember me to your wife & family - conclude the babe left in Hartford when you was here last is now a young lady - whether married or not, do not know
